5. Two (2) each of item IN-74100- Rabies Vaccine - 14 dose treatment; with syringe unit package, will be requisitioned from Depot 3-L-50 by each numbered Station Hospital in this Theater. Due to the recent arrival of dependents of Military Personnel in this Theater, it is believed that the necessity of individual Station Hospitals in keeping this item on hand and ready for immediate use, has been greatly increased. Should it become necessary to use one or both of the treatments on hand, a replacement requisition will be immediately forwarded to Depot 3-L-50.

FOR THE THEATER CHIEF SURGEON:
